A cooperative party game about understanding each other, and arguing about it when we don't!

1. Give a clue on two axes

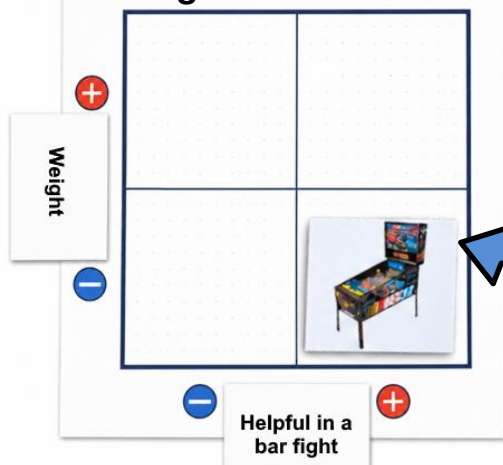

A thing that *rolls faster down a hill* than a **Rubic's cube**, and is *less edible*!?

I guess eating a **pinball machine** would be harder!

And it's heavier, so maybe it *rolls faster*? Let's go with that.

2. Guess a picture

3. The guess is the next clue

More helpful in a bar fight, it must be the **baseball bat**!
